Do you want your students to know more about water? Then join the Oklahoma Green Schools Program as we learn about the water on our planet.

Participants will be certified in Project WET and receive the Curriculum and Activity Guide 2.0 which features 64 field-tested activities for K-12.

You will also learn how to investigate the source, cost, and quality of your school's water supply, and ways to conserve water using Project Learning Tree's GreenSchools! Water Investigation.

Topics covered include:

- ◆ Water Cycle
- ◆ Watersheds
- ◆ Water and Nature
- ◆ Water Availability
- ◆ Water Accessibility
- ◆ Water Quality
- ◆ Water Users
- ◆ Water Infrastructure
- ◆ Water Cost
- ◆ Your Water Use
- ◆ School Water Use
